

Noël chez Claire de Lune (available any night between December 24 to January 2, 2012)

Claire de lune is open during the Holiday Season and as always we are pleased to welcome you during the Festive Season!

Dreaming of an early check-in and hideaway formula for your special Holiday Season?

It might be time to indulge in Noel chez Claire de Lune...

by adding a French-Canadian flair to your Holiday Season!

At Claire de Lune we enjoy helping our guests plan their dining excursion to local restaurants. During the Holiday Season due to restaurant closures, limited dining hours and/or required advanced bookings in select establishments, we are pleased to offer our overnight guests the added flexibility of the following dining options:

A mouth-watering selection of fine cheeses, hors d'oeuvres and scones freshly prepared for your enjoyment ... the perfect answer to help you unwind and cocoon to your liking... a lavender bath in

your private ensuite double-size soaker tub may just be the answer for some, while others may opt for a nature's hike on the property or a "bundled up" health walk if the lake is frozen ...

We call it the "Feeling Peckish Light Fare Menu" (\$20. single plate/\$30. for two, see below).

The option of dining in the Vivoir warmed by its ambiance of the toasty fireplace may be more what you had in mind?

Full Dinner menus feature French Canadian traditional family recipes that

capture the distinct flavours of rural country kitchens. French Canadian Authentic cuisine awaits with a five-course or three-course dinner: classic dishes such as French Onion Soup, Boeuf Bourguignon, Tourtière, Bûche de Noël are all part of our full dinner menu.

(\$30. per person for three-course dinner and \$40. per person for the five-course dinner, see below). We recommend that you bring your own wine or beverage of choice. All prices quoted above include all applicable taxes and gratuities.

Please note: Menus are pre-selected prior to your arrival while activities are spur-of-the-moment and weather dependent.
